

# WINTER TRACK ENGINEERING CONFERENCE

**21ST NOVEMBER**

IMECHE – ONE BIRDCAGE WALK Westminster, London, SW1H 9JJ

| Time start | Duration | Subject                                                     | Presenter(s)                                                                                                                               |
|------------|----------|-------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| 08.30      | 30       | Registration, tea/coffee                                    |                                                                                                                                            |
| 09.00      | 05       | Welcome and agenda                                          | Pablo Forteza - Project Director Engineering & Innovation IP Track, Network Rail                                                           |
| 09.05      | 25       | Track Delivery Update                                       | Steve Featherstone - Programme Director IP Track, Network Rail                                                                             |
| 09.30      | 30       | Croydon Project Overview                                    | Peter Fagg - Senior Project Engineer, Network Rail                                                                                         |
| 10.00      | 15       | Discussion                                                  |                                                                                                                                            |
| 10.15      | 25       | Break                                                       |                                                                                                                                            |
| 10.40      | 30       | Coastal Defence Project                                     | Stephen Bateson - Principal Engineer Structures, Irish Rail<br>Thomas Carolan - Project Engineer, Irish Rail                               |
| 11.10      | 30       | Developments at Barking Riverside                           | David Mansfield - Programme Engineering Manager, London Overground Projects                                                                |
| 11.40      | 15       | Discussion                                                  |                                                                                                                                            |
| 11.55      | 20       | Future Challenges for track engineers and update on the PWI | Brian Counter - Technical Director, PWI                                                                                                    |
| 12.15      | 60       | Lunch                                                       |                                                                                                                                            |
| 13.15      | 20       | Recognition and awards                                      | Steve Featherstone - Programme Director IP Track, Network Rail                                                                             |
| 13.35      | 30       | Cast Crossing component improvements                        | Bleddyn Davies - Senior Engineer, Switches & Crossings, Network Rail<br>Ian Bostock - Principal Engineer, Switch & Crossings, Network Rail |
| 14.05      | 40       | Courthill Derailment                                        | Jon Hayes, Senior Project Engineer, Network Rail<br>Andrew Davies - Track & Alignment Project Manager, WSP                                 |
| 14.45      | 15       | Discussion                                                  |                                                                                                                                            |
| 15.00      | 25       | Break                                                       |                                                                                                                                            |
| 15.25      | 25       | Engineering Competence & Capability                         | David Godley, Head of Engineering & Asset Management Capability, Network Rail                                                              |
| 15.50      | 10       | Discussion                                                  |                                                                                                                                            |
| 16.00      | 5        | Closing remarks                                             | Steve Featherstone - Programme Director IP Track, Network Rail                                                                             |
